Art Unit: 2653

**Election/Restriction**

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group I; Claims 1-31 are drawn to a method of manufacturing a magnetic head, classified in Class 29, subclass 603.13.

Group II; Claim 32 is drawn to a magnetic head, classified in Class 360, subclass 125.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and

---

materially different process. See MPEP § 806.05(f). In the instant case the article can be fabricated using different steps such as plating instead of sputtering and/or steps which do not follow the same chronological order of the claimed steps and/or may omit certain step(s).

Art Unit: 2653

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and require divergent fields of search, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. M. Xu on 16 September 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. J. HEINZ whose telephone number is (703) 308-1544. The examiner can normally be reached on M-F 9:30-6:00.
